

WP 4

Bookshelf for Experiential Learning

Dr. Koen Salemink

Dr. Christian Zuidema

Dr. Katharina Gugerell

Spatial Planning & Environment

Faculty of Spatial Sciences

University of Groningen

24 October 2017, Groningen

Structure

Four tasks

Task 4.1
Learning Session on Integrated Plan. Concepts

Task 4.2
Learning Session Energy issues related to Spatial Planning

Task 4.3
Learning Session on Socio-economic Aspects, Business Dev. & Dec. Making

Task 4.4
Learning Session on Innovative Financing

RLL Karditsa
RLL Calabria
RLL Oemurje
RLL Castilla y Leon
RLL Triangle
RLL Zengale
RLL Groningen

Apply to project

- **Make the learnings from regions and task leaders usable for the project partners**
- How to use this knowledge in your RLL?

BEF

- **Environmental impacts of renewable energy measures**
 - Impact of new measures
 - Thinking beyond low carbon targets
- Making you think about the broader embedding of renewable energy production
 - Landscape
 - Local economy
 - Society

BEF

- Impact of Wind
 - ‘What about my birds?’
 - Sound pollution
- Impact of Solar
 - Local reflection patterns
- Impact of hydro
 - River system disturbance
- Impact of biomass
 - Long-term impacts for ecosystems

BEF

- Mutual trust and **co-creation**
 - Co-creating the project
 - **Co-creativity** in finding solutions
- Ownership to tackle problems?
- Link to financial models for renewable energy production
- Timing element – when to phase out and when to phase in?

Grant Thornton

- **Financing of renewable energy production**
 - Technical and legal ‘nitty gritty’
- Food for thought and further discussion
- Economic and technical viability

Grant Thornton

- Know your name and number
- Eligibility
 - Country, region, type of funding, focus areas -> know your context
- Find a balance between your own agenda and program/funding agendas
- **ctrl F(unding)**

Grant Thornton

- Crowd-funding and community funding
- **Solution for ownership issues?**
- Empowers citizens' initiatives
- Democratic check?
 - Reinvent your role as a local authority
 - Learning!

Grant Thornton

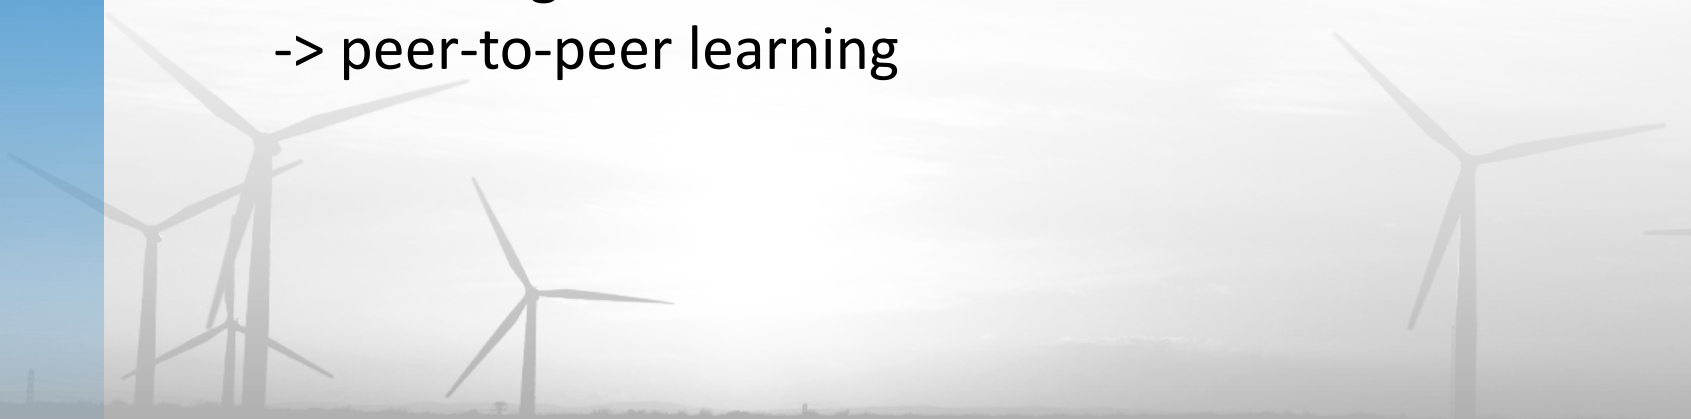

- Energy Citizenship!
 - Middelfart
 - Groningen
 - **Prosumer landscapes**

ECNet

- **Participatory Decision Making**
- Quality of life and livability as a goal for citizens
- **Establish more favorable financing systems**
- Multi-level governance
-> peer-to-peer learning

ECNet

- Establishing an organization – or a vehicle – to enable integrated sustainable energy planning
- Good practices
 - Networking and partnerships
- Warnings from the past

LEAP

- RES technologies and **bad practices**
- Remember Francesco Molinari
- Civil Society should be part of spatial energy planning
 - Good practice
- RES potential
 - Establish with civil society?

LEAP

- Know your regional potential
- Calculating and tweaking a regional business case
- 1) Energy efficiency
- 2) Energy production

Questions

- What questions do you get from partners?
 - What questions do you expect from partners?
- Answers provided so far
- Questions unaddressed according to the experts
 - Future projects?

Task

- Keep on learning
- Team up
